Microscope light

microscope illumination 620nm red ring led light

item no. YK-RD60

LED light color: Red

Red light wavelength: 620NM

Technical parameters:

Outer diameter of lamp housing: 95mm

Inner diameter of lamp housing: 60mm

Lamp shell height: 30mm

Ring lamp power: less than 5W

Input voltage: 110V-265V

Output voltage: DC12V

Brightness adjustment: 0~100%

Focal length: 100mm

Effective working distance: 50-200mm

When the height is 150mm, the brightness is above 100000LUX

LED quantity: 56pcs or 60pcs

Current: 20mA voltage 3.2-3.3V

Scope of application:

1. Microscope illumination
2. Machine vision system lighting
- 3, ecological photography lighting
- 4, medical photography lighting
5. Instrument lighting and so on.
